

Cost Indications

	Option 1	Option 2	Option 3
To provide the MUGA	£63,553	£50,373	£64,658
To provide play equipment	£45,879	26,258	41,645
TOTAL	£109,432	£76,631	£106,303

As you can see the cost indications are significant to provide such a facility. The aim is to secure sufficient funding to cover all of the costs.

This can be a slow process depending on whether the balance can be sourced from one funding provider or whether we would need to seek funding from multiple sources.

Alternatively funding could be achieved by a loan paid through an increase on your council tax.

Would you be prepared to pay an additional £5 on your council tax to provide such a facility.

If not, why not ?

How much extra per household, per year would you be prepared to pay for such a facility ?

Any other comments ?
